

## Diagnostic Residential Application Form 2018

This is an open round of Diagnostic Residential applications, with all applications that show benefit to the National Plant Biosecurity Diagnostic Network (NPBDN) considered for funding. Applicants may choose to specify a known diagnostic gap that will be addressed by the Diagnostic Residential, but this is not a requirement.

The information provided in *Guidelines for Diagnostic Residentials under the NPBDN* will help applicants complete this application form. This is available on the NPBDN website or via [SPHD@agriculture.gov.au](mailto:SPHD@agriculture.gov.au).

Applications close at 5 pm AEST on the 21<sup>st</sup> of September 2018.
